Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,3 are rejected under 35 U.S.C. 102(b) as being anticipated by Kamlukin et al. (3,805,421).

Kamlukin et al. discloses a snow removal machine including an auger 12, a blower, a drive shaft, a chute, a plurality of supporting members 22,25, a plurality of elastically deformable throwing-up blades 16, and a vacant space (between members 26 & 16 as shown in figures 2 & 3).

Allowable Subject Matter

Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 4 is allowed.

Response to Arguments

Applicant's arguments filed 8/19/05 have been fully considered but they are not persuasive. Applicant argues that Kamlukin does not include structure corresponding to the supporting members that allow the throwing-up blade to undergo bending about the proximal end portion while keeping the blade body free from deformation until the blade body comes into contact with the inclined distal end portion of the supporting member. The examiner disagrees, and notes that fig. 2 of Kamlukin shows the supporting members keeping the throwing-up blade body from deformation until the blade body is forced into contact with the inclined distal end portion of the supporting member as shown in the modified figure above. Applicant further argues that in Kamlukin, the throwing-up blades undergo deformation throughout their length. The examiner disagrees and notes that fig. 2 shows the attached end of the throwing-up blades not being deformed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
